ADULT

All after type A aortic repair
See page 140

CONGENITAL

Low T1C flow and BCPV in aortic dissection
See page 150

THORACIC

Single-direction thoracic aortic aneurysmectomy
See page 166

ADULT

Aorta: The type of aortic regurgitation after ascending aorta replacement in type A aortic dissection. *Kim & Lee* 1421

Aorta: Therapy of atherosclerosis, inflammation, and degeneration with ascending thoracic aortic aneurysm. *Lawrie & Roberts* 1434

Aortic Valve: Postpericardiotomy syndrome after surgical AVR. *Adachi, Saito, and Yamada* 1446

Aortic Valve: Bicuspid aortic valve pathogenesis associated with genetic variants of matrix degradation. *Chen & Akintoye* 1459

Thoracic Valve: Inverted Expert Opinion: Energy conversion valve repair for aortic regurgitation. *Henry, Hoshino, & Fung* 1467

Thoracic Valve: Inverted Expert Opinion: Transcatheter aortic valve repair: forgotten valve. *Hiro, Inagaki, Dohi, & Akimoto* 1479

Coronary: The role of catheterization for isolated aortic coronary artery bypass surgery. *Yam* 1479

Coronary: Coronary endothelial dysfunction prevented by GK channel activator in mice and patients with diabetes. *Dang & Fung* 1493

MCS: The impact of uncovered root aortic insufficiency on the size of left ventricular assist device implantation. *Smolke & Juhn* 1498

PM: Effect of endovascular stent deployment on P2 components in cardiac surgery: A randomized trial. *Alavi* 1505

PM: Inverted Expert Opinion: Results of the Permedic trial and how it relates to resuscitation after cardiac surgery. *Dunning* 1519

THE ANNALS OF THORACIC SURGERY

Volume 110 • Number 6 • December 2020

Predictors of High-Impact Articles in The Annals of Thoracic Surgery

Altruistic scores are emerging as non-traditional metrics capturing social media attention to evaluate scholarly impact

Top 80 articles with the highest Altruistic scores published in The Annals of Thoracic Surgery in 2015 and 2017

From 2013-2017, there were increased:

- Altruistic scores
- Authors on Twitter
- Attention from news outlets
- Attention from tweets
- Retweeting
- Citation with citations

11e Club ECMO pédia Bordeaux 29-30 nov 22

Juil 21, 2022 | A la une 2

*Club ECMO
Pédiatrique*

Le 11e Club ECMO pédia aura lieu à Bordeaux, les 29 et 30 novembre 2022 dans le cadre exceptionnel de la CCI, place de la Bourse. Pour cette nouvelle édition du Club, nous consacrerons la première journée aux présentations scientifiques, pour avoir le temps d'échanger et discuter toute la soirée, sans limites et sans penser au TGV de retour.

**Dr Philippe MAURIAT - Pierre BOURGOIN - Nicolas JORAM -
Pierre-Louis LEGER**

Coordonnateurs du Club ECMO Pédia

DU d'ECMO pédiatrique

Dans la droite ligne du *Club ECMO pédiatrique*, l'équipe de la réanimation pédiatrique de l'hôpital Trousseau de l'AP-HP de Paris organise pour la rentrée 2019-2020, un *DU d'assistance circulatoire et respiratoire et extra-corporelle de l'enfant et du nouveau-né*. Il est ouvert aux médecins et aux personnels paramédicaux.

Pierre-Louis Léger et Jérôme Rambaud sont les responsables de l'enseignement. Vous pouvez obtenir des renseignements auprès de Sonia Gallais : sonia.gallais@aphp.fr

**Diplôme universitaire d'assistance circulatoire et respiratoire
extracorporelle de l'enfant et du nouveau-né**

Année 2019-2020

Directeurs de l'enseignement :

- Pr Pierre-Louis Léger
- Dr Jérôme Rambaud

Profil des candidats :

- Réanimateur pédiatrique et néonatale
- IDE, IPDE, IADE et IBODE

Dear colleagues, members and friends,

The EuroELSO steering committee are delighted to invite you to join us at the next EuroELSO meeting in Lisbon 26-29 April 2023. We want to build on the great success of our first post COVID meeting in London. The Lisbon meeting will offer a full scientific programme covering all aspects of the deployment of ECLS in the adult and paediatric spheres. There will be great opportunities for hands on experience and simulation with educational workshops and pre-meeting courses covering a variety of basic and more advanced ECLS practice.
